Forward

The diverse competitive events that are listed within this booklet are open to TSA chapters affiliated through registration with the New Jersey state office of TSA, completed by February 29, 2012. The High School State Conference will be held at The College of New Jersey on March 28, 2012.

How this booklet works
The NJ Supplement works in conjunction with the National TSA Competitive Events Guide found on the High School Competitive Events CD, which should be received 2-4 weeks after affiliation with the National TSA Office has taken place.

This booklet presents the competitive events offered at the NJ State Conference in alphabetical order as well as the maximum number of participants or teams permitted to compete from each chapter. Each New Jersey competitive event in this booklet lists only the modifications from the National guidelines. Substitute the NJ modification in this booklet for the number or letter on the National guidelines to ensure that your chapter meets the guidelines for the NJ Competitive Events.

Please be sure to read all sections of the Supplement carefully. It is the hope of the NJ-TSA Executive Committee that this guide will enable teachers/advisors, students and competitive event judges to better prepare for this exciting conference.

Any questions may be directed to Ms. Alison Goeke, NJTSA State Advisor at (609)771-3244 or goeke2@tcnj.edu or Henry Harms, NJTSA Competitive Event Coordinator, at harms@tcnj.edu.

| **TIME LIMITS** | A. 45 minutes  
                         B. All teams will participate in the oral competition. |
| **PROCEDURE:** | Delete A-K. Follow the procedures listed below:                                |

A. Following the written test, team members will report to the oral event area holding room for briefing at the designated time. After briefing, advisors must leave and the team will remain in the holding room until called for competition. Teams may visit with other teams; however, no advisors or visitors may enter the holding room.

B. Team members will not be allowed in the oral event area as observers until after the team has been eliminated from competition.

C. When instructed to do so, two (2) teams will enter the event area and be seated according to instructions.

D. When a team has been defeated in any round of the oral event, the team is out of the competition.

E. Questions will be drawn, as needed, from a card file resource bank.

F. A team’s total score is derived from the correct answers to the questions asked. For each correct answer, a team will receive ten (10) points. When a question has been completely read and a team is recognized to answer, if the team does not answer or answers incorrectly, five (5) points will be deducted from the team’s score. In this instance, the other team does not have the opportunity to respond to this question, and the next question is read for both teams. If is question is being read and a team member presses the button before the question is finished, the member must answer completely as stated on the answer card. If the answer given is incorrect, the entire question will be read for the other team.

G. A total of twelve (12) questions will be asked per round. No questions will be repeated in another round. In the case of the tie, five (5) additional questions will be asked. This procedure will continue until the tie is broken. The questions will be picked at random from the basic areas tested.

H. **Bonus Question** There will be one additional question (bonus question). The bonus question will be announced, and the team
that answers it correctly will have the opportunity to answer one additional question. This is the only time when team members may consult with each other before giving an answer. The team will have ten (10) seconds to give its answer. If a team gives an incorrect answer to the bonus question, then the question will be read to the other team. Bonus point scoring: If a team answers the bonus correctly, that team receives fifteen (15) points; if a team answers the bonus incorrectly, that team loses five (5) points from its score.

I. A panel of evaluators will be available to respond to questions concerning acceptable answers.
   1. Rulings on acceptable answers will be made only during the round in question.
   2. Rulings will be made immediately, to do one of the following:
      a. Accept only the answers listed on the card.
      b. Accept the student’s answer and renew points, or remove the question and read another in its place.
      c. The rulings of the panel will be final.

**REGULATIONS:**

Delete A-B. Follow regulations listed below:

A. No transmitting or recording devices, including cell phones, will be permitted in the event area. No prompting will be permitted.
B. The team member who “buzzes in” will have five (5) seconds to answer the question, without discussion.
C. The team that answers the bonus question will be allowed ten (10) seconds to discuss the extra question and give an answer.
D. After a question is read, the competing teams will have ten (10) seconds to answer. If neither team can answer the question, then another question will be read.
E. If a team member “buzzes in” before a question is finished being read, that member must give the exact answer as printed on the card.

**EVALUATION:**

Delete A-C. Follow evaluation listed below:

Evaluation is based on the total points from the three written tests plus the total points from the oral competition. Awards will be given to the top three (3) teams.
